WORK EXPERIENCE

Digital Artist · Freelance, Philippines · 2021 – Present

- Deliver commissioned digital art and logo design for clients acquired through referrals and word of mouth.
- Produce original digital artwork using Krita as the primary tool, with prior experience in ibisPaint.
- Design graphics and layouts in Canva to meet client requirements.

Creative Director · NU Wizards Circle, Manila · Aug 2024 – Jul 2025

- Managed the organization's social media presence.
- Designed publication materials (pubmats) and layouts in Canva.
- Kept branding and visual theme consistent across all organizational materials.

PROJECTS

ARTIFACTS – CAPSTONE PROJECT

Front-End Developer | National University – Manila

- Developed the front end of a gamified, Unity-based AR mobile application featuring 3D museum artifacts for historical and cultural preservation.
- Helped create visual assets for the application's UI/UX.
- Built using Unity and Visual Studio Code in partnership with the Pasig City Museum.

AUDIO ENGINEERING PORTFOLIO WEBSITE – COURSE PROJECT

Audio Engineering | National University – Manila

- Built a portfolio website in HTML presenting six audio engineering projects, including remixing, foley design, dialogue editing and multi-track mixing.
- Added video playback for each project, along with About and Profile sections.
- Published the site online through GitHub Pages.

FILM PRODUCTION – COURSE PROJECT

Storyboard Artist, Pre-Production Team | National University – Manila

- Created storyboards as part of the pre-production team for a film production course project.
